

Smart Mini DC UPS

Intelligent Power Distribution / True 120W Output

KP9

Multi-output

10*DC + 1*PoE outputs support powering up 11+ devices

High-capacity Battery

20000mAh(8*2500mAh) high quality batteries provide longer backup hours

Security Never Shuts Down

AC to DC 0 ms Transfer

Keep your devices stay working when UPS shift from AC mode to battery mode

High Power Budget

120 watts max total output power, single port also supports up to 120 watts
53.5V / 2.2A (Max.), 48V / 2.5A (Max.) supported

Advanced Temperature Control

Air cooling system provides maximum heat dissipation,
ensuring long-term stability of the UPS

Durable Metal Product Housing

The interior components of KP9 are protected by high-quality metal casing to ensure a long product life

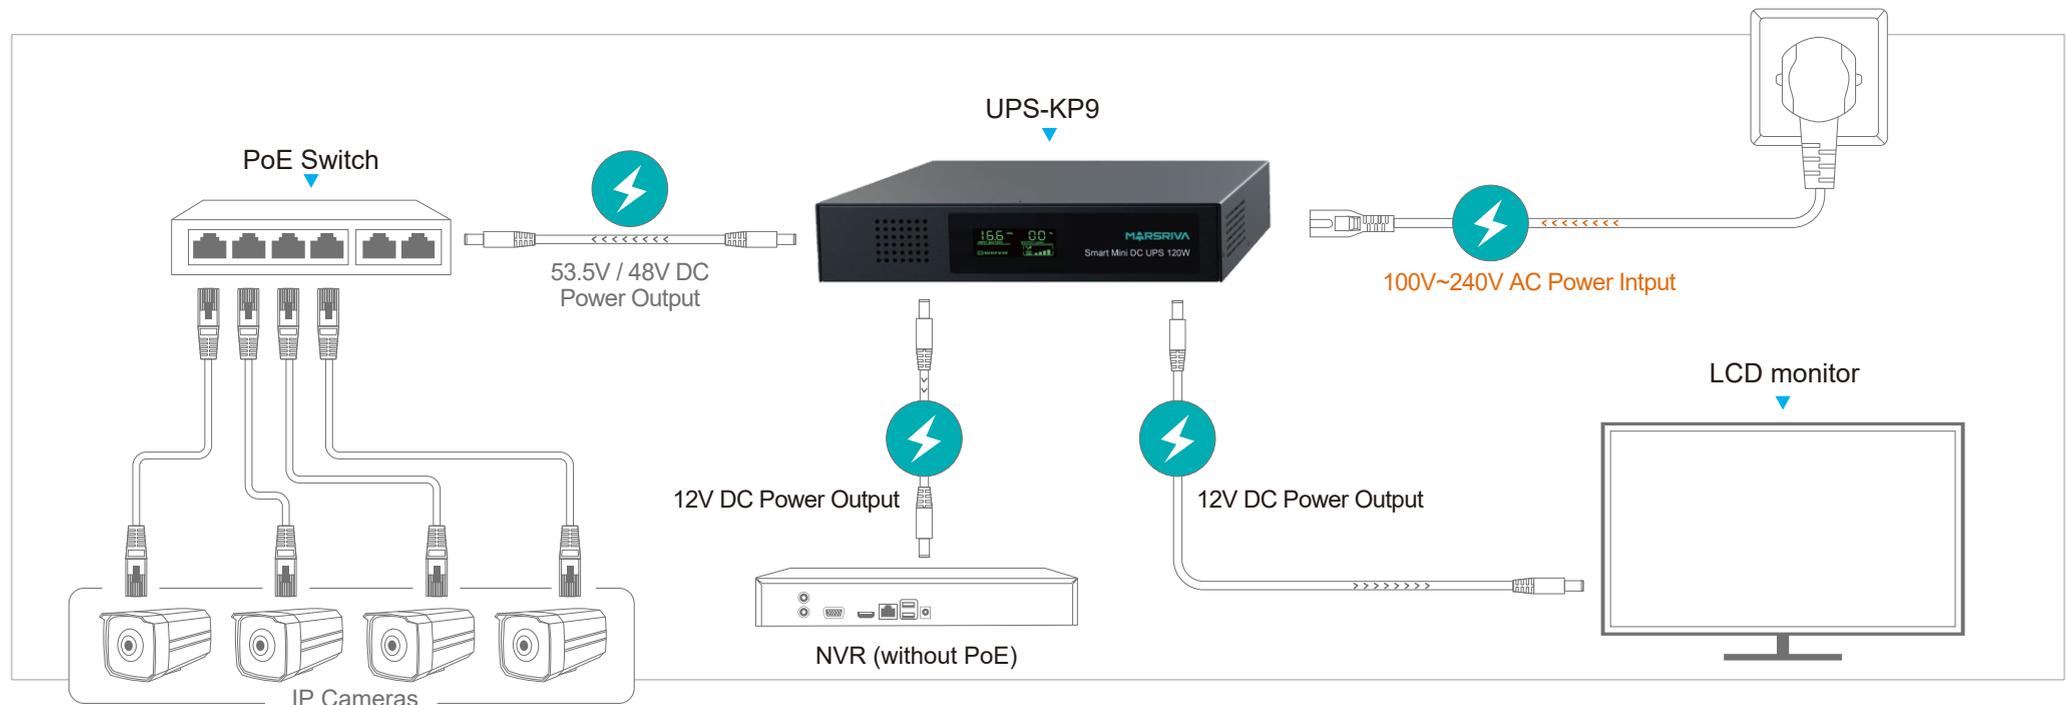

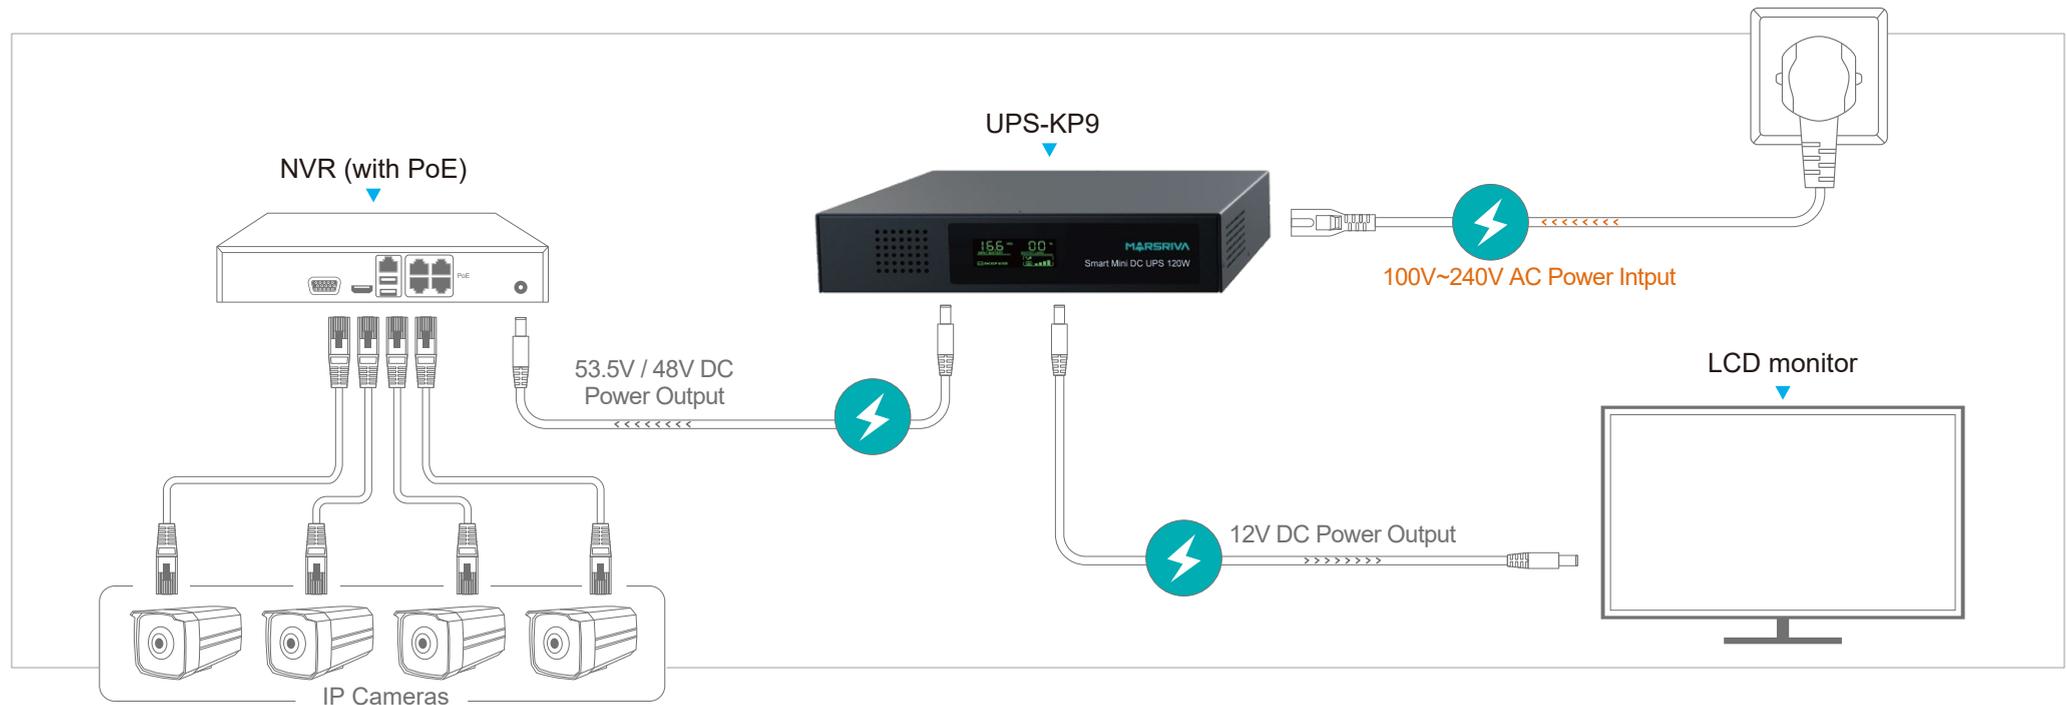

LCD Monitor

Shows you the accurate power status of the UPS

Broad Compatibility

With 12V/48V/53.5V DC and 24V/48V passive PoE output, up to 120 watts output power, KP9 is compatible with most of the digital devices, such as PoE switches

Specification

Name	Smart Mini DC UPS
Model	KP9
Battery Capacity	20000mAh (8*2500mAh)/3.7V 74Wh
Input	100~240VAC / 50-60Hz
Output	PoE 24V / 1.0A or 48V / 0.5A (+4,5pins; -7,8pins) DC 53.5V / 2.2A * 2 ports DC 48V / 2.5A * 2 ports DC 12V / 3.0A * 6 ports
Total Output	120W (Max.)
Unit Dimension	250mm * 200mm * 50mm
Net Weight	2kg
